

## BCC Career Center Employer Recruitment Services

Looking for great local employees?

Come to Bristol Community College.

The College's Career Center works closely with local business and industry to build partnerships that match your workforce needs with the skills and abilities of our students and alumni. Take advantage of our services or customize your own recruitment plans with us. Learn more about each on the reverse.

### CREATE FREE JOB LISTINGS

Post full-time, part-time, temporary, summer, and seasonal job opportunities for Bristol students and alumni. Use our database to list your opportunities.

### PARTICIPATE IN A JOB FAIR

Career Services offers three job fairs a year. Meet a large number of candidates, including entry-level and seasoned professionals. These events are actively marketed to ensure a high turnout.

### RECRUITMENT DAYS

You are invited to staff a recruitment table in the Commonwealth College Center at various times throughout the academic year.

### EMPLOYER IN RESIDENCE PROGRAM

Engage regularly with students throughout a semester or a year to create interest and preparation for your industry.

**The Career Center looks forward to helping you find the employees you need.**

**YOU, improved!**

# Employer Recruitment Services

## More about recruitment services for employers

The Career Center at Bristol Community College specializes in making connections between our students and alumni and your workforce needs by offering the following services:

**Job listings:** To list a job, complete an online form on the College's Web site. (From [www.BristolCC.edu](http://www.BristolCC.edu), choose "Business and Community" and then "Employer Resources" in the left column.)

*Please note that we do not conduct background checks or confirm credentials or overall fit between the applicant and the employer. We also do not offer these services for employers who offer commission-only compensation or purchase of franchises, products, or services up front, or where compensation is based exclusively on fees/percentages from others.*

**Job fairs:** The Career Center offers three job fairs, with one targeting the health technologies sector. The College sponsors an additional Human Services Opportunity Fair each spring. All sorts of job opportunities, such as internships, part-time, full-time, and seasonal positions, are offered. The fairs are open to Bristol Community College students and alumni. The Career Center seeks a broad representation of industries, as well as those requested by our students.

**Recruitment Days:** Solicit applications and discuss career paths at your company. Contact the Career Center to schedule a date and time that works for you.

**Employer in Residence:** This comprehensive, fully customizable program will introduce your company to the College community and provide an opportunity to meet some of the best and brightest students. You can be involved in College life and provide mentoring services, résumé evaluation, job shadowing, and more. This can provide your company with a connection to the community and give you the chance to nurture possible employees. Employers determine the level of commitment and partner with the Career Center to make it work effectively.

**Great employees are our business. Make it happen with Bristol Community College.**
