Getting Ready for Kindergarten helps children feel socially and emotionally ready to enter formal education. In this class your children will become better familiarized with the skills and expectations that he/she will be introduced to in a kindergarten class. Children will get to experience peer group situations and activities in a fun and safe environment.

SAT Prep Class-Math & Science

To provide students with practice for the SAT exam using tests that have actually been administered by the College Board. Through the practice sessions, students should become more familiar with the content of the exam and gain confidence as they approach the actual testing situation. During each class, students will analyze problems with the instructor and discover strategies for responding; they will also have the opportunity to work independently in timed testing. (Math and Science focus)

SAT Prep -Reading Comp. & Writing

To provide students with practice for the SAT exam using tests that have actually been administered by the College Board. Through the practice sessions, students should become more familiar with the content of the exam and gain confidence as they approach the actual testing situation.
